25X1 Comment. a total of 138
 25X1 railroad cars with grain arrived in East Germany in August
 1952. On the assumption that the cars had an average load
 capacity of 15 tons, this would amount to 13,800 metric
 tons of grain imported in August 1952. In July, 2,354 cars or 35,310
 tons of grain arrived. The report supports the
 assumption that the grain import program was essentially
 completed in July 1952.
